Low temperature spray cleaner with temporary corrosion protection

Suitable for

- Spray cleaners and ultrasonic cleanings systems

Product data

Form:	liquid
pH value:	9.0 – 9.6
Colour:	light yellow
Density:	1.01 – 1.05 g/ml

Properties

- Curatech NE 160 is a neutral cleaner, not subject to the obligation to label goods precisely, with temporary corrosion protection, for all types of material.
- Due to a novel surfactant combination, the product features a very good degreasing performance.
- Due to the demulsifying properties, oil and lubricants can be separated out with the help of a simple oil separator. This way, consistently good cleaning results can be achieved for several months.
- The detergent substances contained therein are biodegradable in accordance with EU guideline 648/2004.
- Curatech NE 160, furthermore, does not contain any NTA or EDTA.

Application

- The application temperature should be between 40 - 55 °C.
- The concentration for use should be 4 - 5 %.
- The duration of the washing cycle depends on the system and the soiling.
