Liquid, mildly alkaline degreasing agent for all materials,
with corrosion protection

Suitable for

- Spray cleaners and ultrasonic cleanings systems

Product data

Form:	liquid
pH value:	8.2 – 8.8
Colour:	light yellow
Density:	1.02 – 1.05 g/ml

Properties

- Curatech SP 363 SA is a recyclable cleaner for all metal surfaces.
- Due to a special novel surfactant combination, the product features very good demulsifying properties so that oils and greases can be separated out with the help of a simple oil separator. This way, consistently good cleaning results can be achieved for several months.
- Curatech SP 363 SA is equipped with very effective corrosion inhibitors. Curatech SP 363 SA adheres to the metal surface and creates a temporary corrosion protection and the metal surface remains paintable.

Application

- The application temperature should be between 60 - 70 °C.
- The concentration for use should be 3 - 5 %.
- The duration of the washing cycle depends on the system and the soiling.
